

## Stanley Road Primary School – Animals and Habitats Knowledge Organiser – Summer Term 2

Vocabulary		Life Processes																					
<b>extinct</b>	None left in the world, all died out	These seven 'life processes' are what all living things do (including all plants and animals). <table border="1" style="margin-top: 10px;"> <tr> <td>M</td> <td>Movement</td> <td>All living things move, even plants.</td> </tr> <tr> <td>R</td> <td>Respiration</td> <td>Getting energy from food.</td> </tr> <tr> <td>S</td> <td>Sensitivity</td> <td>Detecting changes in the surroundings.</td> </tr> <tr> <td>G</td> <td>Growth</td> <td>All living things grow.</td> </tr> <tr> <td>R</td> <td>Reproduction</td> <td>Making more living things</td> </tr> <tr> <td>E</td> <td>Excretion</td> <td>Getting rid of waste.</td> </tr> <tr> <td>N</td> <td>Nutrition</td> <td>Taking in and using food.</td> </tr> </table>	M	Movement	All living things move, even plants.	R	Respiration	Getting energy from food.	S	Sensitivity	Detecting changes in the surroundings.	G	Growth	All living things grow.	R	Reproduction	Making more living things	E	Excretion	Getting rid of waste.	N	Nutrition	Taking in and using food.
M	Movement		All living things move, even plants.																				
R	Respiration		Getting energy from food.																				
S	Sensitivity		Detecting changes in the surroundings.																				
G	Growth		All living things grow.																				
R	Reproduction		Making more living things																				
E	Excretion		Getting rid of waste.																				
N	Nutrition		Taking in and using food.																				
<b>habitat</b>	The natural home of an animal or plant																						
<b>prey</b>	Animals that are eaten by another animal for food																						
<b>producer</b>	A plant that makes its own food from sunlight																						
<b>consumer</b>	An animal that eats plants or other animals																						
<b>predator</b>	Animals that eat other animals																						
<b>herbivore</b>	An animal that only eats plants e.g. cow, deer																						
<b>carnivore</b>	An animal that only eats meat e.g. shark, lion																						
<b>omnivore</b>	An animal that eats plants and meat e.g. humans, badger																						

Food Chains	Survival
<p>A food chain shows how different living things get the energy they need to survive.</p> <div style="text-align: center;"> <p style="display: flex; justify-content: space-around; margin-top: 10px;"> <span>Solar energy</span> <span>Producer</span> <span>Consumer Prey</span> <span>Consumer Predator</span> </p> </div>	<p>All living creatures need these four things to survive:</p> <ul style="list-style-type: none"> <li>• food</li> <li>• air</li> <li>• shelter</li> <li>• water</li> </ul>
